

PATIENT SAFETY DURING SYSTEM EXPANSION

MISSION AND GUIDING PRINCIPLES

MISSION STATEMENT

The affiliation will unambiguously increase the value of care to the joint patient population of all involved organizations.

GUIDING PRINCIPLES

1. State and track the clinical goal / value proposition.
2. Involve clinical leadership in:
 - » defining the goal or value proposition
 - » assessing the affiliation's ability to produce that value
 - » execution
 - » governance
3. Seek input/expertise from professional liability carrier on the affiliation's effect on malpractice risk experience.
4. Jointly define and share clinical data needed to monitor and achieve the clinical goal.
5. Establish a joint clinical accountability process for achieving the clinical goal during and after affiliations.
